# STOCKS WERE REACTIONARY

No Acute Weakness Except in the Specialties.

DEMAND WAS VERY SMALL

Constant Drip of Small Selling Undermined Market and Caused Prices to Crumble-Money Market Showed Growing Ease.

NEW YORK, July 20—Yesterday's check to the recovery in prices was surplemented to-day by reaction. There was no acute weakness, except for the eccentric plunges amongst the inactive specialities, but the demand diminished to nominal proportions. Commission houses, which reported vesterday an awakening inquiry for stocks found to-day that the slight reaction in prices had almost entrely discouraged this buying and in some cases had induced buyers to get out of the market again hurriedly. A constant drip of small seiling undermined him market and caused prices to crumble. The early selling centered on Atchieven, following up the late movement of yesterday. The general list resisted for a time until some of the specialities began to make violent declines. The weakness then became guite general. The reports of rains in the Southwest with expected benefit to the corn cron disposed of another ground of weakness. The selling was partly by professional bears, but the suspicion remained that long stock was coming upon the market and made an unfavorable impression upon speculative sentiment in the whole market. A feature of the situation is the revival of various reports, running from the plausible to the highly improbable, of new combinations and absorptions of railroad systems. The purchase of the Evansville and Terre Haute evidently gave a new lease of life to this class of reports. Some resumption of the speculative excitement in cotton was against the stock market, and the large speculation developing in the grain unfrienced in the speculative excitement in cotton was against the stock market, and the large speculation developing in the grain unfrienced in the speculative excitement in cotton was against the stock market, and the large speculation developing in the grain unfrienced in the speculative excitement in cotton was against the stock market, and the large speculation developing in the grain unfrienced in the speculation of the speculation of the speculation of the speculation of the speculation. The money m

wheat crop was suffering further deterioration.

The money market showed a growing ease for time loans. But the movement of prices of specialties on the Stock Exchange indicated that thate was some selling out of collateral in loans. Stocks recovered a large part of their declines late in the day, when the liquidation in Atchison had spent its force and the closing was a pathetic and not far from last night's level. In the bond market Chicago Terminal transfer, fours, were offered down 6 1.2 just before the close. Toledo, St. Louis and Western fours, fell. 2. The bond market was quite broad and showed a good inquiry, although some of the inactive investment issues were marketable at considerable concessions from last prices. Total sales, par value, 12,410,600.

from Hat Disco. 12,410,000. United States 3's declined 1 and the old 4's 11-2 per cent, on the last call. Total sales were 451,000 shares.

Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK, July 30.—The opening on the Btock Exchange was generally firm, encouraged by the tone of the newspajer comment oversight and the absence of any daugerous development in the London market. The traders pressure of the previous afternoon did not seem to have been very successful, and the professionals were more inclined to operate for a zally in view of the good chracter of the general support.

Atchison railled on the very definite antisment, made officially, that there was \$12,000,000 and satisfable for the control in the loan crowd, and particularly the people who were borrowing it, would indicate that the traders made a raid in the chance of shaking out some considerable bildings.

THE EARLY TRADING:

THE EARLY TRADING:

The room traders developed their attack upon Atchison in the first bour, and the effect of it was to some extent felt in the rest of the list, eithough the selling was not urgent anywhere, and the market could not have been called weak. London was a very light trader either way, and the commission houses were doing practi-

United States Steel held remarkshly well in split of the reported weakness in foundry Iron. Both the common and preferred seemed to have been sold to a standaril, and the latter issue in particular has been lately picked up by people who were anything but admirers of the corporation at the time when Mr. Keene was entrusted with the distribution of the stock. The selling in New York Central seemed to be good, and the question of the necessary financing looks likely to come to the front again.

ATCHISON RAID EXTENDED TO R. I.:

The raid on Atchison was extended to Rock Island in the second hour, and the traders generally were operating on the short side of the market. The selling for London was about the most genuine pressure, and indusenced the market where the professional efforts would not have hed much effect.

Rock leland was hammered by the traders on the revival of the story of a blanket mortgage sovering the system and the recent purchases, and although there was nothing new in the report, traders on the short side found it useful. It is probably true, but the amount of new borrowing does not amount to more than \$3,000.000, while economies in such a unification of bended indebtedness are obvious.

It is understood that an announcement will shortly be made of the issue of \$250,000,000 unifying and refunding bonds of the Chicago, Rock Island and Pacific Company, The bonds will be for not more than 4 per cent, and will be long term bonds.

THE LAST HOUR'S TRANSACTIONS:

The market closed dull with some of the deeline partially recovered and made no very
serious recession on the day, and certainty nothing to justify the attempt to revive the disturbing runors current a week ago. The
smaller traders were disposed to cover shorts,

#### COTTON MARKETS.

COTTON MARKETS.

NEW YORK, July 30.—The cotton market opened easy at an advance of 20 points on July end 3 on August, while the new crop was I point higher to 5 points lower, and during the entire session ruled very irregular, showing considrable excitement, at times activity. The old crop months at first showed great firmness on covering, with July attracting a more demand than on any previous morning this week, while the later positions, which at the start had shown a deciling tendency as a result of realizing, also recovered and for a time ruled firm with the mear positions, builtsh news from New Orleans and a renewal of clique support. Then July, which had sold up to 13.50, dropped down to 13.49, and was offered still lower without finding buyers, and this, with rather easier cables, caused a partial reaction in the new crop options so that around mid-day they were at practically last night's finals. Additional and heavy rains were reported from Texas, however, which spain stimulated buying, and with another show of clique support the market was soon up to the heat level of the day, with August selling at 12.49, September at 10.00 and October at 10.03, the general list, with the exception of July, and the meantime had reached 13.15, then suddenly turned strong, selling up to 13.50, while just before the close the balance of the list was very week under bear pressure with August selling advant to 12.30, then dropping to 12.50 on the last saie. July closed at 13.40, a net advance of 4 points lower. The general tone at the close was steady. Sales were estimated at 150,000 bales.

To day was the last notice day for July con-

the close was steady. Sales were estimated at 150,000 bales.
To-day was the last notice day for July contracts, and the trade this morning was nervous and apprehensive of development in that position.

## MORE THAN TWENTY-FIVE WERE KILLED

The Dire Results of the Magazine Explosion on Wednesday.

(By Associated Press.)

LOWELL, MASS., July 30.—No further deaths among the injured by the magazine explosion of yesterday in South Lowell had occurred at the hospitals where those most seriously injured were taken. The condition of Clarendon Goodwin, sixty years old, who was in charge of the United States Cartridge Company's employes at the storehouses, is most critical. He is unconscious most of the time, Mr. Goodwin is the man who endeavored to remedy a leakage of nitro-siycerine, and whose act in pouring nitric acid, in mistake for water, on the leakage is thought to have caused the explosion. Two of the injured who late last night were reported to have died are yet alive. Of the dead the bodies of George Flynn, Louis E. Richard and James Grady, employes of the United States Cartridge Company, had not been recovered. It is thought that they were blown to atoms. An unknown man is reported to have been burned to death in the wreckage of a dwelling, in spite of the desperate efforts to rescue him.

Allowing for possible deaths among those injured, it is not anticipated that the death list will exceed twenty-five.

The State officials will hold an inquiry into the cause of the explosion. Medical Examiner Irish has begun a post mortem examination of the dead hodies.

Search for the body of Louis Richard, who was in charge of the men moving the powder, resulted in finding to-day several small pleces of his clothing in a garden about seventy-five yards from the magazine buildings, indicating, it is believed, that the man was blown to atoms. Foreman Goodwin, it is said, during a lucid moment, denied that he was in any way responsible for the disaster.

#### CENTRAL AMERICA FIRE

## Loss Not Less than \$250,000 and Only

Loss Not Less than \$250,000 and Only Partially insured.

(By Associated Press.)

MOBILE, ALA, July 30.—A disastrous fire occurred in Cleba, Spanish Honduras, July 15th, the particulars of which havings been received here. The fire originated in a building occupied as a store and dwelling of the Vaccaro Brothers Steamship Company.

The building was said to be the largest in Central America. Many houses and stores followed, and the city was covered with fiames. The people and officials, under Commandant Julio Agliaria, organized a bucket brigade, in which even women served.

The loss was not less than \$250,000, only partially covered by insurance.

#### KILLING OUT THE SEALS

Capt. Nice Charges Fishermen on Japanese Vessels With Shooting Them,

anese Vessels With Shooting Them,
(By Associated Press.)
SEATTLE, WASH, July 30.—Captain
H. H. Nice, agent for the North American
Commercial Company at Dutch Harbor,
Alaska, who is here, charges the fisherwen on Japanese vessels with the disappearance of scals on the Pribyloff Islands.
He says American and Canadian fishermen masquerade under the Japanese flag
and shoot seals, instead of spearing them,
which causes the bodies to sink rapidly,
so that many are killed to no purpose,
while the chooting disturbs the breeding
of near-by islands.
Captain Nice claims that unless the depredations are stopped the Pribyloff Islands seals will disappear in a few years.

Daily News to be Sold.

(By Associated Press.)

NEW YORK, July 26.—Announcement is made that the New York Daily News, plant and good will, will be sold at auction in this city on August 21st. The Daily News has been published by the New York News Publishing Company, of which Frank A, Munsey is the principal stockholder.
